

I understand that new legislation may allow LPFM stations to take priority over the current FM translator service. I believe that KLOVE radio, 88.1, 91.9, and 88.9 in my area, provides a great service to the community through their positive, family-friendly, non-violent and encouraging message. If the KLOVE radio station in my area is removed, there will be many families with who will not have a positive, encouraging message to listen to on the radio. I believe that, because of these issues, KLOVE radio is in the public interest and should remain on our airwaves. Thank you for your attention to this matter.
